WARNING

- Excess force can cause wrench slippage
- Wrenches can break if overloaded
- Do not use "cheater bars" on handles
- Wear safety goggles (User and Bystander)
- Broken or slipping wrenches can cause injury
- User can slip or fall if a fastener suddenly breaks loose or wrench jaw slips or breaks
- Pull, do not push, on wrench handle
- Read additional safety warnings on pages W1 to W4 in Catalog 1500
